Fellow managers:

Lend me your ears. I come not, to drag you kicking and screaming,  
to make you swallow your pride and admit your business needs  
CTRG. I am here as one who did for you.

You're thinking, "my ways have served me for decades, I'm OK". Oh  
fool, slumber in your circular thoughts no more. Allow them to  
sculpt a little more, only with finer tools this time. They will  
take you & your business beyond more than an object, a work of  
art.

Tarry no longer my fellow managers and commit.

Regards,

Richard K. Willis

Vice-President
